

When all the trappings of Troop A and the signal corps were gotten together the troop marched to the rear of the camp, where it is on freight cars behind their own train, and rode west to their armory, Dickel's Barracks, about 1:30 P. M. The march was in the rain. Where Capt. Rice dismissed both commands.

**Beams! Beams! Beams! Beams!** The cry. Two privates of the Twenty-third Regiment, who came on to New York in the last express from Buffalo, arrived at the Grand Central Depot at 7:30 this morning. They said they had obtained leave to go home in advance of the regiment as soon as the strike had been declared off and the order issued for breaking up camp.

Both were young fellows, and they looked as if they had been a week's service. Their uniforms were dusty and begrimed, and each had a week's growth of beard upon his chin. They seemed to be glad to get back again, and told an Evening World reporter who met them at the depot that in their opinion actual field service, even with fair accommodations, was very little to do in an express train. They were both from Buffalo, and were fighting, with no means a soft soap.

"I haven't had a square meal since I left home," said the younger, "and I have lost nearly fifteen pounds in weight since I went to Buffalo."

"The food which was furnished us by the Commissary Department was so bad that we could not eat it," the other said. "You couldn't even stir it down with a spoon, the boys don't eat it."

"The food which was furnished us by the Commissary Department was so bad that we could not eat it," the other said. "You couldn't even stir it down with a spoon, the boys don't eat it."

## HOLLAND HOUSE TROUBLES.

Issue Between Owner Van Doren and Proprietor Kinsey.

The latter will have to deposit \$107,000 cash in the suit.

Lawyer George M. Pliny, Jr., of 96 Broadway, who is conducting the defense of Herbert M. Kinsey and others, proprietors of the Holland House, in the suit brought by Mrs. Mary J. Van Doren, was seen this morning in reference to the judgment of Judge Gleicher yesterday in the Court of Common Pleas.

By this Mr. Kinsey is required to deposit with the United Trust Company the sum of \$107,000 in cash, with two sureties, if he does not wish to have a receiver appointed.

Lawyer Pliny said: "The order has not yet been entered, and the money has therefore not yet been deposited, but it will be within a day or two, as soon as the order is entered. While Mr. Kinsey considers the amount unnecessarily large, he is quite able to furnish it, and will undoubtedly do so. As to the bonds, we have not yet decided as to who the sureties will be, but a number of people amply able to do so have offered themselves as sureties."

"The order is not yet entered, and the money has therefore not yet been deposited, but it will be within a day or two, as soon as the order is entered. ## PEST IN ENGLAND.

(Continued from First Page.)

Infected persons or baggage were shipped and the disease thus communicated to the passengers. The Sorrento from Hamburg is due to-night or to-morrow.

**STEAMSHIP LINE'S PRECAUTIONS.**

Hamburg, French and Red Star Officials on the Alert.

The action of the Hamburg-American Company in withdrawing its four express steamships from the infected port of Hamburg has stirred up the other transatlantic lines, and their agents in this city are expecting more extensive measures have been adopted at other points of departure for New York.

An additional cause of uneasiness among shipping men is the fact that the existence of cholera in French and German ports has already had an important effect in their traffic from this port, and the probability of small passenger lists is staring some of the companies in the face.

Inquiry this morning at the offices of the French line Agent Fort, got said that the passage money of twenty persons had been returned during the last few days on account of the cholera, and that a comparative rush was being made to cancel passage engagements already booked by passengers.

hands of the Chief Sanitary Inspector and the work will begin at once.

**DUMPING OVERBOARD.**

Health Officers' Raid on East Side Produce Dealers.

The Health Department made a raid on the fruit dealers of the east side this forenoon. The raid was conducted by Acting Chemist Dr. Alfred L. Beebe, Fruit Inspectors Bayard C. Fuller and W. G. Fox, four officers of the Sanitary squad and a big covered wagon.

The officers started in at Ridge and Houston streets at 10:45 o'clock. They proceeded down Ridge street to Delancey, then turned into Attorney street, to Heister street, to Ludlow street, to Canal street. Every fruit, fish and meat stand along the route was thoroughly inspected.

Seizures were made, on an average, four or five stands to the block. Apples, pears, cucumbers, tomatoes, bananas, onions, cabbages, carrots, beets, corn, chickens, ducks, fish and eggs were confiscated right and left. It is customary for the inspectors to raid this district about once a week.

If the inspectors saw fruit, vegetables or fish that looked in the least suspicious it was dumped without ceremony into the department wagon. There were no arrests made.

Some of the dealers were very demoralized by the proceedings at the seizure, but as the raid was more sweeping than usual many of them were let off with a reprimand. Some of the fruit seized was in very bad condition. The stench permeated the air for blocks. The character of the fish on sale was found to be better than usual, although in some cases it was found to be in an advanced stage of decay.

When the wagon reached the corner of Ludlow and Canal streets it was creaking under a weight of two tons of seized produce. The wagon was hurried off to the East River, where its cargo was dumped on scoops at the foot of Rutgers street.

This afternoon Inspector Fox is looking into the character of the fruit in the Mulberry bend and Mott street. Dr. Beebe said: "This raid is more severe than usual, because the Health Department deems it necessary in order to get the city in condition to prevent a cholera epidemic should the dread disease reach this port. We are keeping a vigilant eye on these people for some time to come."

**SMALL-POX CASES.**

Two Patients Discovered To-Day and Sent to the Island.

Health Board officers found to-day, at No. 10 Pike street, Frank Wheeler, twenty-one years old, sick with small-pox. He was removed to North Brother Island. Also found at No. 10 Johnson street, Angelo Gigliello, twenty-three, was also found ill with small-pox and was sent to the island hospital.

## ENDING OF MONMOUTH'S MEETING MARRED BY A CARELESS JOCKEY.

Mars is a Game Colt.

Moynie Gelding's Good Race—Other Track Talk.

Monmouth Park's great meeting came to a close yesterday afternoon. It was a pitiable weather the 4,000 people who braved the incessant rainstorm were well repaid for their trouble. The meeting was one of the most successful ever held, but we are indeed sorry to say that at the eleventh hour a most deliberate-looking action on the part of one of the worst jockeys in the country caused an accident, which went far to mar a successful wind-up. This accident occurred in the last race, and although Patrol Judge Fitzgerald reported the circumstances to the judges, no action was taken in the matter at all. The race was at seven furlongs, and gave promise of being a regular feature, as one man had all the horses entered, or at least, to the expression of a prominent turfman, "it's all in the family." Boyle & Littlefield sent Schuykill; C. Littlefield sent Simrock and C. Littlefield, Jr. sent Julio. Pickering, Littlefield and Pean were the respective jockeys. The smart people smiled to themselves and would have nothing to do with the matter. The stableman to all appearances went on Simrock while Schuykill was the outsider. At the start Pickering crossed his mount directly in front of Simrock and caused Littlefield to pull up. After Simrock was out of the way he set sail for Julio, who was on the rail. At the crossing of the circular track and straight course Schuykill crossed Julio and bore him close to the rail. Little Penn became frightened and called to Pickering to pull out, but Pickering, instead of doing so, pressed him all the harder. About three-eighths of a mile from home Julio was seen to fall. How Little Penn ever escaped death is a miracle, but the horse never moved, as in falling he had struck the fence and broke his neck. Dying instantly. With Julio out of the way Schuykill won as he pleased. Judge Fitzgerald reported the case to the presiding judges, but no attention was paid to the matter. Mr. Fitzgerald also says that it was one of the barest cases of intentional fouling he ever saw.

The Evening World called the attention of turfmen to this character of riding only a few days ago, when Jimmy Lambie caused an accident at Brighton Beach and predicted serious accidents as the result, if the matter was not looked into, and decisive steps taken. Jockeys are constantly imperiling their lives, without this kind of work, and should by all means be protected from a few unscrupulous youngsters who will resort to almost any means to win. Penn has been making quite a reputation for himself lately, and it is not surprising that the turfmen are so much interested in him. He is a very unscrupulous boy like Pickering. All turfmen cannot be like that. Pickering is a very bad fellow, but he is not the only one of his kind. There are many others of his kind, and the quicker they are taken care of, the better. Let the board of control come forward and investigate the case thoroughly.

The racing otherwise was very good. Posars had the opening race easily from the start. The turfmen were very much interested in the race. The turfmen were very much interested in the race. The turfmen were very much interested in the race.
